Dear Herman Garritsen!

We would like to express our gratitude for the multiple humanitarian help to the residents of Mykhailivskyi Starostynskyi. This time we have received a lot of medicines, food products, baby food and hygiene products. We have sent medicines, hygiene products and food to our defenders to the front where hostilities are taking place. Unfortunately, we cannot provide photo and video reports of receiving aid, as it is forbidden to take photos and videos on the front line. We distribute clothes, hygiene products and baby food to people in need, temporarily displaced persons and villagers who are unable to take care of themselves and buy the necessary things. This time we received adult diapers, which we gave to bedridden people and those with health problems, they were incredibly grateful as this helped to provide more comfort for them! We are sincerely grateful to you for the helpprovided to the residents of Mykhailivka village. Millions of thanks and millions of bows to you, our dear friends! We would also like to say thank you to Angelina Kucheruk for her help, for her kindness and sincerity. For the fact that even though she is thousands of kilometers away from us, she never leaves us and helps us. Dear Angelina, we sincerely thank you and wish your team health, strength, love and a peaceful sky above your head!

Sincerely, District Chief Dovgenko Vitalii Volodymyrovych
